

Taking and sending photos is one of the most important steps. Please email photos to info@fenixhealthandwellness.com with your name in the Subject in order to receive an accurate price for your procedures

Facial and neck photographs:

At least three close up photographs are needed showing the front, right and left profiles of the face including the neck area. The photographs should be taken from a straight angle, with NO make up, and with any hair pulled back.

Nose photographs:

At least four photographs are needed showing the front, right, and left views. The fourth photograph should be taken from a low angle showing clearly the contour of the nostrils. All photographs should be taken with NO make up and with any hair pulled back.

Chest photographs:

At least three close up photographs are needed showing the front, right and left profiles of the breast. All photographs should be taken without a bra and please EXCLUDE your face.

Torso, buttocks and leg photographs:

At least four photographs are needed showing the front, left, right and back view of your middle, and lower body. (Legs, lower back and buttocks areas) All photographs should be taken with minimal clothing (bikini, small underwear etc) and please EXCLUDE your face. For tummy tucks please take at least one photo bending forward so the amount of excess skin can be visible.

Arm photographs:

At least two photographs are needed showing the front, and back view of your arms fully extended to the sides. All photographs should be taken with minimal clothing (sleeveless shirt, bikini, small underwear etc) excluding your face.
